

AERATORS

Only Exmark has designed the world's finest class of stand-on and walk-behind aerators. If you're looking for high quality, you've come to the right place. Our aerators are a combination of legendary strength, ease, and innovation. We've got your back.

More Options for Aeration

No two landscapes are the same, which is why we offer a variety of aeration options. Whether you're looking for the versatility of our compact S-Series walk-behind aerator or the unmatched productivity of the 30-inch Stand-On Aerator, Exmark aerators deliver top-notch performance, durability, and ease of use.

Breakthrough Technology

Being leaders in the industry means developing breakthrough technology. Our walk-behind aerator features variable drive speed and a powered reverse, putting you in complete control. And with our stand-on aerator, you'll have 1,200 pounds of solid down pressure pulling up to 5-inch plugs. Our innovation makes turf management easy.

Aerators

Productivity is the key to profitability for your business and the Exmark Aerators cover from one to two acres per hour with intuitive control, maneuverability and straightforward operation these aerators are the industry leaders
