

## ***SLICER SEEDER - COMMERCIAL GRADE SLIT SEEDER***

Why buy dethatching equipment for just one task when Exmark's Slicer Seeder does three?

Ultimately, the goal of any landscape professional or acreage owner is the same—to get the best results, all while working as economically as possible. At Exmark, we want to help you accomplish all of your landscaping tasks—from mowing to reseeding a lawn. If you are in need of an efficient grass seeder and dethatcher, you have come to the right place.

### ***Pro-grade Features***

The Exmark 20" Slicer Seeder is perfect for generating new grass for your customers and new revenue for your business. It performs three jobs with each pass—verticutting, dethatching, and overseeding. It has the following features:

- Slicer blade depth adjustment
- Easy storage
- Seed delivery system
- Commercial-grade power
- Large capacity seed hopper
- Durable steel blades

Our Slicer Seeder's infinitely variable hydrostatic drive with powered reverse makes it fast, maneuverable, and as easy to operate as a self-propelled mower.
