

Super Green

Liquid Fertilizer

Super Green is a proprietary blend of seaweed with added surfactants and with a natural fragrance derived from essential oils, which quickly repairs and limits damage from environmental stressors such as insects and disease in lawns.

Method of Application:

Super Green works best in conjunction with a regular lawn care maintenance program. Thoroughly cover area to be treated.

General Application:

Apply with a pressure sprayer. Use high pressure to ensure product reaches soil or lower thatch levels.

Dilute 180- 240 ml in 8 L of water to cover 1000 sq. ft. Use lighter application early in season and heavier application when lawn is under stress. Thorough coverage is important. Do not apply when temperatures exceed 28 degrees C. or phytotoxicity may occur. Use entire contents of sprayer each day.

Caution: Keep out of reach of children. Do not take internally.
